WEATHER REPORTS FOR YUGOSLAVIA 27 NOVEMBER - 6 DECEMBER

28 November

Report: . Mostly fair in all sections. Light winds. Temperatures at 1300 hours, 5 - 7 degrees (all degrees are in centigrade); in the Primorje, 10-13 degrees.

29 November

Forecast: Fair in all sections during the night with morning fog, except in northwestern sections, where it will be increasingly cloudy. Slightly cloudy during the day; possible light rain in Slovenia. Light southeasterly winds, increasing in strength at the end of the day, especially along the coast and in the Danube Valley. Morning temperatures, between 0 and -5 degrees; higher during the day.

31 December

Report: Mostly fair. Morning fog in Slovenian and Croatian valleys. Northerly winds. Temperatures at 1300 hours, 7-9 degrees; in the Primorje, about 18 degrees.

2 December

Report: Moderately cloudy in Slovenia and northwestern Primorje; mostly fair in other sections. Moderate southeasterly winds. Temperatures at 1300 hours, 8-6 degrees; in the Primorje, 12-15 degrees.

3 December

Forecast: Slovenia, Croatia, and the Primorje: Considerably cloudy with light local showers in the morning. Heavier showers during the day. Light southwesterly winds, becoming northerly; moderate southerly winds in the Primorje. No change in temperature.

50X1-HUM

Bosnia, Montenegro, and the Vojvodina: Moderately cloudy in the morning; increasing cloudiness during the day; light local showers the afternoon. Moderate southeasterly winds. No change in temperature.

Serbia and Macedonia: Moderately cloudy. Moderate southeasterly winds. No change in temperature.

4 December

Report: Cloudy with rain in western sections and on the Pannonian plain. Snow in mountainous regions of Slovenia during the day. Moderately cloudy with no rain in southern Serbia and Macedonia. Moderate southerly winds. Temperatures at 1300 hours in Macedonia, the Primorje, and western Bosnia, 11-15 degrees; in other sections, 8 degrees.

5 December

Forecast: Mostly cloudy in all sections. Snow in Slovenia, Croatia, and Bosnia. Rain in the morning in Serbia and in the Vojvodina; snow and rain in the afternoon. Rain in Montenegro and along the coast. Moderate winds. Temperatures will drop in all sections, except in the extreme south.

6 December

Forecast: Moderately cloudy and clearing in the morning north of the Sava and Danube rivers and in Bosnia. Moderately cloudy in other sections; light local showers in Serbia and Macedonia. Increasing cloudiness during the day in all sections. Rain in the Primorje, spreading into the interior. Moderate winds. No change in temperature.

WEATHER IN SLOVENIA

Ljubljana, Slovenski Porocevalec, 27 Nov - 2 Dec 50

28 November

Forecast: Sunny, partly cloudy; morning fog in valleys.

29 November

Forecast: Sunny with increasing cloudiness; morning fog in valleys. Temperature at night, -6 degrees; during the day, 10 degrees.

2 December

Forecast: Mostly sunny; morning fog in valleys. Temperature at night; -7 degrees; during the day, 10 degrees.

3 December

Forecast: Mostly cloudy with local showers. Temperature at night; -3 degrees; during the day, 12 degrees.

3 - 10 December

Forecast: Heavy precipitation about 3 December (first rain, then becoming colder, and snow). After 3 December dry and cold (freezing at night, 0 degrees or below during the day). More precipitation is possible on 6 or 7 December. However, precipitation is more likely about 11 December.
